

# Beautiful Lucas

# A Little About Myself

My name is Lucas Polla da Silva, I was born in Sapucaia do Sul - RS, I currently live in Esteio with my mother, I'm 18 years old. I really like going out with my friends, playing video games, football, and going to the beach. I do not think I would live without music, it's part of my routine. I also love to talk, but most of the day I prefer to spend alone.

# My Family

My family is complicated because it is divided into two parts: part of father and mother.

On the part of father, the family is more united. They are always meeting to go out and travel together, always a novelty. I love them all very much, they always treat me very well.

On the mother's side, the family is also united, but they fight more than they have fun. We rarely do anything with the relatives, only those who are always well are me, my mother, my stepfather and his daughter. It's

complicated, but I love them all, too.

# My City

It's not the best city in the state, but it's a great place to live, besides having several places to eat, there is also a great tourist spot: Expointr. There are always great events there, such as raves and parties to go with the family. It's also a safe and very well kept place, besides having a great neighborhood (most gremista).

# My Friends

My friends are the best people in the world! I'm sure I can count on all of them at all times, never disappoint me. They are always supporting me in everything I need, not only in good times, but also in bad times (especially bad ones). I would not trade them for nothing, I hope to take them forever with me.

# In my Free Time

In my free time I like to play videogames, play football, hang out with my friends and mainly listen to music and watch series. Rarely do I practice reading, at most if it's comics. I also really enjoy watching movies, my favorites are just heroes and comedy.

# Study

When I finish high school, I intend to start my Computer Science degree, and pursue a career that involves computer science and bring me enough profit to have a life without complications. Study is the basis of everything, I do not intend to stop my learning so soon. In addition to Computer Science, I also intend to attend Gastronomy.

# Work

Currently, I intend to work in the industry - an initial job to gain experience and to be able to pay for my college, so that in the future I will be able to get a higher position in an area that I really care about. So, in the future I will work with something that really is what I want and also I will be able to pay my college in Gastronomy (that will be more for hobby).

# -> Abilities

# Soccer and Volleyball

I played soccer since I was 5 years old, I won many medals when I was part of the futsal team. In the jemusa I also won some, with the team of my elementary school.

After football, volleyball is my favorite sport, I won a medal in 2011 and since then I have never played in the championship, just for fun.

# Cook and Photograph

I started this year (2018) to cook, and it's something that captivated me a lot, because in addition to leaving me relaxed, it's great to cook for friends, because it's easier to gather them together - they always show up if they have food.

I really like to photograph, it is something gratifying to capture moments and to be able to record these moments and not just save, but to spy for others.

# LoL and Fortnite

Last year (2017) was when I discovered the League of Legends, a game that aroused incredible interest, because it requires a lot of concentration and strategy and, after much training, I acquired great skill in it.

Obs: It's much better to play with friends.

I also discovered Fortnite - a game that is currently world famous. It also requires great concentration, attention and a lot of training. After a year of playing, I was able to improve my skills and master the game.

# 5 Tips for a Good Interview

- 1- Maintain posture, using worshipful verbiage.
- 2- Wear appropriate, social clothes.
- 3- Go prepared for any question.
- 4- Try not to be nervous, showing trust is a good thing.
- 5- It seeks to maintain a good dialogue, showing its ideas and goals for the future of the company.

# Room of Eviction

Carolina de Jesus is a black woman living in the favela. Besides being a good cook, she is also a garbage collector. She knows the basics of reading and writing, she is also a very dedicated woman, always trying to do her best in her job. She is the mother of three children and creates them by herself, but that never stopped her from completing her work effectively. He is producing a diary book about the favela, something that looks great and totally different from other forms of writing. He is also very responsible, always meets his schedule, waking always early to be able to enjoy the day better, aiming for a greater profit in the evening. She does not have great experiences working inside companies and industries, since she has always worked in the street for her own sustenance, but she is a woman who always seeks to learn more to be always better to be able to leave the favela.
