

My Life

Eduardo Dias

3A

My name is Eduardo, but my name was to be Patrick, because my mother wanted me to call her that. I was born on February 25, 2001, at Getúlio Vargas Hospital, in Sapucaia do Sul, weighing 3600 grams. Today I live in Sapucaia for 5 years, but when I was born I lived in Cachoeirinha.

It's me!

I do not have many skills, I just have some knowledge to play chess, I have a facility in learning to play electronic games and to be a good goalkeeper, I can write "Star Wars" with only 1 hand. I do not know how to make many varieties of food, just sweet or salty popcorn and some other things like frying a steak.

I live with my mother and my brothers, my parents are separated, so I only see my father at the weekends. I have 3 brothers, 2 boys and 1 girl. My dad has a girlfriend who has two kids, I really like them, so I consider them familiar too.

I do not have many friends, only those who live daily in school, at least when I was studying. I always went to stay at home, not to go out to play in the street, but I like all the friends I made in those years at school. I would always keep in touch with them, they are all part of my story.

My hobby is simple, I play on the computer, I watch videos on Youtube, I watch movies or series, I switch on my cell phone, I tidy the house from time to time (usually when I get tired of doing the things mentioned above).

I particularly like things in the "Geek World", like Star Wars, Lord of the Rings, any kind of game, but I also like the classic board games, at least the ones best known as chess and checkers, but currently I'm playing Turkish Checkers which is a very interesting game for those who like the subject.

Star Wars is one of the things I like the most, maybe it's the one I like the most. The whole universe is very interesting and all the stories that the saga tells are incredible: the Jedi, the Sith, the Empire, Star Wars is really very fascinating. Sometimes I wonder if George Lucas (Star Wars creator) had already

thought of Episodes 1, 2 and 3 before creating 4, 5 and 6, because everything fits perfectly.

There are few of my favorite foods, I like pizza, fries and pasta with meat / chicken, besides eating rice and beans of course. I hate salad, of all kinds and ways.

My plans for the future are similar to most people's, home, family, money, legal work, but deep down I dream of owning a company, maybe Coca Cola, or else I create my own company. I also dreamed of being a professional e-sports player, something that is coming with the advancement of technology.

If the professional player part goes wrong, I will study the area of electrical, to study electrical engineering, or a technical course also turned to electrical.

Here are some tips on how to do well in the interview:
