

3 ANO A EACC

THE YOUNG BLACK

Maria Angélica

The case of the young man, it was only one of many of the way that occur every day, i and many know that case was extreme racism and injustice. despite the assumptions of why that young man was approached that way, i believe that independ of action, that form of approach was extremely unnecessary. The situation was completely controlled, but as a form of superiority, the security, purposely imposes its "authority" on that young man, end ends up so making a crime and leaving impune, for its ethnicity, for justice has color.

THE RACIAL PREJUDICES

Rikelmy Marinho

I think it was unnecessary for the security attitude, it was not necessary to stay on top of the boy for so long. In this report I can see how much racism still existed and how much it remains hidden, because this event was commented only superficially on the internet and television.

Now we had an event where a carnival block made a presentation where the devil wins God and this was commented and viralized Brazil; I only know I have a question: **Why did the boy die, did not he become so virulent?**

PREJUDICIOUS SOCIETY

Evilly dias

Racism and prejudice is not just a joke as many people think, the vast majority of the population discriminates against black people just because of their color. Unfortunately this is what happens in today, someone only to have a distinct color is humiliated or even killed by selfish individual who do not have a minimum of compassion with different sexual education people. Man should be aware of that we are unique, being particularity, that way, we must respect the individuality of each being without discriminating or judging it. In the case of the 19-years-old young woman who was strangled in the Extra Supermarket, the security acted prejudicably to immobilize the young brutally. The most incredible is that the media did not have great repression as the case of the dog's that was killed coarsely for the Carrefour Supermarket, showing us that the life of a Black man is less value valued than a dog.

Killer

Tarsis Willian

The security wanted kill the jevem because if he did not want to kill him, would have let it go, very bad to know that there are still ignorant and prejudiced people these days, just because the young man was black the security accused os tried to suppose the he was wanting to sob the market bad this suffocated to the death for no reason.

Desvalorization

Carlos Antônio

The people do not know to have their others , racism is a ridiculous thing because in my opinion everyone will us be the same and we must be treated as such. I found a lot of ridiculous what happened to Pedro in the case of the supermarket as if midia did not care about that already joined more to moving to the supermarket for the security of what the Pedro as if they were devaluing black people.

EXTRA RACISM HAPPENS

Geovane Arruda

In my opinion the case of the young man who was killed in the supermarket, the law was not correctly enforced on security who on "gave" him a tie. The security guard is responding in freedom for having paid a small sum compared to a lifetime, he should be condemned. It may be a case of racism or not, but in my point of view it was a case of racism, unfortunately that happened.

RACISM THESE DAYS

Izabella Burjack

Racism is more and more present in the lives of black people and there is also prejudice, many people face directly and so do not have a shared opinion. We must all realize that we are all equal regardless of color, race, religion and sexual choice in the end we always end up in the same place. The case of the young Pedro from the Extra Supermarket shocked everyone but after a few days he fell into oblivion, it was not on Tv. We can present another fact that had more relevance, on December 28 a dog was killed inside the Carrefour supermarket and there were protests, mobilization through social networks. The, through the facts we realize that there is little case when it comes to a young black man and should not be, since we are equal regardless of anything, We should unite and give the respective value and respect that each one deserves.

TITLE:DISCRIMINATION AGAINST BLACKS

VANESSA DANIELY

I think the prejudice in Brazil is very big, this case of the young man who was strangled, was absurd, could have solved without leaving for the violence, without killing a young man who was not to blame for anything, was only in the public place as the other people, but he was wronged dead because of the color of the skin, and the security think he was a criminal, without proof.

THE RACISM

ERICA VITORIA

Racism is a type of prejudice associated with races or physical characteristics, many people practice the act of prejudice because they are superior to others, whether by skin color, intelligence, culture ... We can analyze the case of the young black of 19 years, assassinated by a security of Extra supermarket.

Racism is becoming more and more present in our society. In my opinion we should inform ourselves that this case is very serious, it generates depression, violence and death, we must respect and accept that we are all equal, regardless of color, opinion, culture among others and parents and teachers should alert young people and the children about this cause, say no to racism.

SHAME

Warley Cabral

In my opinion that happened to the young man who died for safety unfortunately is our reality a very large prejudice with the blacks of our country. This has already passed the limits have a lot of black people dying. When they will understand that we are all the same as color does not define anything neither character personality etc. Yam ashamed of the country that i live.

THE INJUSTICE

EMILLY BARBOSA

In a world where we have as base of our psychic existence the greed, to have always more and a certain superiority, to think that because I am white, to have a roof and a comfortable car "I am already better than the others". we have a lot of social injustice, humiliating people, hurting (physically and emotionally) other people for just thinking they are different from them. in the case of the young man killed in the Extra, I can not say that the security man killed him out of prejudice, but I can say that if he was a white man or a "papa's boy" he would appear even in the National Journal as Injustice.

Involuntary Racismo

Racism is present in the daily lives of Brazilians even though they involuntarily, from small actions that are seen as normal and end up bringing a great impact as murder occurred in Extra. Black people are increasingly suffering from racism in all areas of their lives. In my opinion we have to extinguish all expressions and racist jokes and educate young people so that in the future the color of their skin has no influence whatsoever on the way in which they are treated.

Larissa Moreira

Say NO to racism

In my opinion society is increasingly being dominated by the ignorance that the black has no value and is increasingly being dominated by prejudice and leaving aside the love of neighbor and empathy. We can say that the color of your skin defines how they treat you and how they see you before society, this is an atrocity and the human being needs to evolve quickly and fight against prejudice

Valeska Sifuentes

THE PRECONCEPTION IN OUR DAY TO DAY

Rafaella

Unfortunately the society brings characters of attitudes and ways to think so racists that unconsciously are presents in our days. the case of Extra in my way to think is one more reflection about racism present at the context that empathy and equality. I know that some problems sounds they never could be resolved but nothing changes without paciente and attitude. What is important is not to give up to try to be better.

RACIAL PROBLEMS WHASTS REASON

In my opinion today is not easy for low class people, more and more we are faced with cruel news like that of a young man who was killed only for being considered a threat or for being black to what point we reached the year of 2019 has barely begun and these news and cases are increasing, in the 21st century we have these types of racial problems we must educate the children the new generation teach that the color of the hair does not change the character of anyon.

Yasmin Moraes de Souza

Racial Prejudice has been growing ! especially in relation to young black , can we have as an example the case of the young black of 19 killed by a security guard inside the famous extra Supermakert in são paulo security said the young man had stolen from the store but it was what appeared to have been the case because the young man was whit his family and said that the young man had not stolen anything.

The security forces were eventually revoned from ofice by the act,wict did not help because a life had alvod been lost,peutps because the young man was black he judget, since this is the reality in brazil and in the world

The black and judget as animal only by the fact of color of his scrim and abso by the fact that many blacks live slums and on the streets fut many of these people live places because they did not have the opportunity ! even by preference due to certain circustances ! fut as we know over the past centuries the black suffered from this racism or that ethenic war already comes from our ancestaress and is still practicid today and racism is crime

We should not judge

People who don't know the value of a person don't know their own value, these people who only know how to judge and criticize or the racist and hypocrite can't live in society, for the simple fact that they don't accept a person the way that they are. Lack of love of neighbor in society must be the obligation of all, we can no longer accept racism and prejudice

Douglas Rafael
