-------	----

The worst student of the CNA

It all started in 2011 when a boy wanted to play his video game in English and understand what was happening inside the game. Then he asks his father to attend an English course, the father answered his request and then in the best English school, CNA !. Matheus, was super excited about his first day of school, meeting his class and his first teacher. So coming in on his first day, he was nervous, and he was still pissed for the first time in his life.

All the students were in the yard and I come to many teachers, each with a folder with the names of their respective students, until then a big man, half chubby with yellow hair and very extroverted, begins to call his students and the last one I list, Matheus Silva de Lima, that's where my story begins in the CNA.

CHAPTER THE BEGINNING

The feeling was strange, knew no one but our teacher was so at ease that it seemed that we knew the years. He asked us our names and ages, and I already spent my first shame, I said my name and I missed my own age so nervous, the staff laughed but I made up my mistake and class continued.

There I made two friends Breno and Douglas, nowadays I have never seen them again, but I remember that we were many friends, helped us in the lesson that was always my bad, I always did last minute, this is one of the characteristics of the worst student of the CNA.

But my teacher was very fond of me (Professor Alex), he always encouraged me and said that I was capable of everything if I really wanted, so my motivation to learn English owed a lot to him, so I went from teens 1, with great difficulty, but with much encouragement and courage for the next semester.

CHAPTER 2

MOTIVATION

How many memories of teens 2, I met one or maybe my favorite teacher, teacher Leticia, at the time he should be 18 and was already teaching, a brilliant mind, my class was still the same, one or two students left, but my two friends were there, also had Matheus Dornellas who loved to show their intelligence to the room and I was feeling the worst student in the room. I liked teacher Leticia very much because she was also one of my motivators to go forward, a logic that continued with my late homework or missed a lot of things in them and the others always taking a bigger note than mine. At the time of the written test I always went wrong, but the teacher leticia helps me to improve more and more, and I loved the oral tests, because it was a short time and could go alone with the teacher, then spent less shame, and the other week I always had the Dornellas finding himself on account of his brilliant notes, and I almost weeping over my bad notes. But i passed for this semester.

CHAPTER 3

The craziest teacher

My teens 3, could have been the funniest semester I had, the teacher was Rodrigo, every class I laughed and more laughter, even with the Dornellas found in all of them and putting me down, I was happy. But soon I'll be happy the inter-logical semester is a joke. I almost repeated this semester because of my homework and weblessons, but by a miracle I got through. I did not have many conversations with Professor Rodrigo, he should not even remember me anymore, or remember I was a bad student, afraid to try and quiet, but I'm glad he made me smile so much in the classroom and and this year with teacher Rodrigo, even with me being a bad student, I was able to understand some of my games in English and even managed to watch an entire episode of Drake and Josh entirely in English, that was a conquest for me and I take this achievement for my entire life, and I owe this a lot to my 3 teachers who helped me on this walk to watch an entire episode in English. Especially the teacher Rodrigo, I really thank him and his teachings. Thank you teacher Rodrigo.

CHAPTER 4

Spelling

In teens 4, I had my biggest win inside the CNA, the biggest win of a worse school student. Do you remember Dornellas? He's still in my room, and in that semester, Professor Leticia repeated (and she helped me a lot as usual) and in that semester I would have the spelling of the CNA, start in the class and then the class winner would play against the winner of the other class. So I thought I would face Dornellas, and that was it and it happened, we both qualified for the finals of our class, I was very nervous and happy to win some people at least, but he was my fear, and if I won I would mock me. And in the end was to make a mistake and the other hit, was already eliminated !, so he spoke first and incredible as it seems MISTAKE, and it was all the pressure for me, and dropped the word "Dress" for me, such an easy word , but I was scared, but I got it and I won it and I was very happy. In the end I lost the rest of the championship, but I was happy to win the one who mocked me, so I went from teens 4.

CHAPTER 5

DISAPPROVED

Going to Gold 1, my teacher Vinicius taught me a very good and very hard teacher, the Dornellas always pulled his sack, and he got a lot on my foot, this is not a bad thing, I was a very bad student, but with him taking my foot helped me to evolve. Those two my friends, were no longer in the ANC, so I was alone with two girls who did not talk to them, and the Dornellas who hated me, and the teacher on my foot, but I remembered all the motivation of the teacher alex, teacher Leticia , and I did not give up on this course. But I was doing very poorly in the course and the tests, so Professor Vinicius reproved me and I was very sad, and I almost gave up on this course, but I remembered all my teachers who helped me stay here and I NOT GIVE UP !.

CHAPTER 6

THE END

Finally we get to master 2, the end of a whole trajectory of more mistakes than hits, but certainly with more joy than sorrows. I did this book for a CBT, but it was nostalgic and joyful to see how much I grew up and matured with my mistakes, being the worst student in your school has its advantages, I'm sure I've learned a lot more than some of the schoolmasters, I cried I took a lot of fights from my parents, my teachers, but despite all this, all those who have fought with me, helped me a lot to grow as a student and as a person. The CNA has done wonders in my life, today I can take my leisure more easily in languages, I can dream more with my future to have English in my life, everyone who has passed through this my trajectory, students, teachers, receptionists, director, everyone is in my life story,

and all these, made the worst student in the school, being the happiest student in the world to have finished and not having discontinued this course, that is the most important, to be as happy as possible. Thank you, my name is Matheus Silva and I was the worst student of the CNA, but the happiest realized my dream.
