

See You in prision

How about a toast for all the years
you turned the town a against me made them think i
was the enemy you thought that i'd stay quiet
disappear

well, it feels so good to be back here

I wrote a little speech on behalf

it says "i must sincerely apologize for forcing you to
serve my time".

You still think i won't get the last laugh

Well, justice ain't considered a crime
nobody believed me when i told them u was innocent
bu if they had your company they'd let me get away
wuth it

yadadadadada

you tried to make me out to be the villain

yadada

this time i'm in for crimes that i commited

yadada I brought you down an i'll proudly admit it

what goes around

will come around

see you in prision_

They said they found my footprints in the snow
incriminating evidence there's way I'd get out of this
but there is just one secret they don't know
it was you in my shoes
the faces that glow
nobody believed me when
I told them that you framed me
but if you come up missing, darlin' who would even
blame me?
yadadadada
You tried to make me out to be the villain
yadadadada
this time I'm in for crimes that I committed
yadadada
I brought you down and I'll proudly admit it what goes
around will come around
see you in prison

The pires you started will burn you right up
i'm sick of you lyving, i'm calling your bluff
the weapons you planted are pointed at you
i bet wearing orange got you feeling blue
The pires you started will burn you right up
i'm sick of you lyving, i'm calling your bluff
the weapons you planted are pointed at you
i bet wearing orange got you feeling blue
