biography

I'm Vitória, a 16-year-old high school student living in Canguçu Velho. As the daughter of agricultural workers, I've grown up surrounded by the land and the value of hard work. When not studying, I enjoy helping my parents on our farm, especially with tobacco cultivation. I'm proud to contribute to my family's livelihood and learn essential skills for my future.

TOEIC preparation

For TEIC, we're doing Physical Ed classes with tons of handball practice. I get super nervous before the tests, worried I'll mess up. I occasionally score, but usually I'm on defense.

CapCut

Today, October 30th, we played a handball tournament against Guido!
