The Jack Russel Terrier he is a hunting dog, since the picture shows a domestic Assima because he does not have his tail cut what helps in hunting. We cut the tail of the animal after the three weeks of life.he is native on England usualy we saw him on others countrys they are realy unknowned by other,in Brazil they are usualy overlooked.And if you buy a dog like this he will be your best fried he is very social and funny so you won't reegret at buying one of this.

- The Siberian husky is a strong dog with a well-developed muscular structure.
- The skin is covered with two layers of hair.
- They have colored eyes as well flashy, eg, green, blue, yellow or brown.
- Generally have the legs in color with white spots on the head and tail.
  - The body is covered with hair in white and gray (most common) or in combinations with white: red copper, black, reddish brown. They may be also all white.
- They have medium sized ears, pointed upward.
- On average, huskies measure from 50 to 60 cm tall.

The Siberian husky is a canine breed from Russia. These dogs are known from Siberia to almost two thousand years, when they were specially designed to pull sleds by the Chukchi in extreme conditions. In 1909, coming out of Siberia toward Alaska, began to popularize the world. A few years later, helped to save the population of a village in the U.S., when they took medicines and supplies to people isolated by a storm. For this achievement, a particular specimen became very famous: Balto.
