History and Origin

The French Bulldog, aka Frenchie, is a race that owes its existence to at least three countries: England, France and USA. England helped with the basis of race, which was the former Bulldog. French breeders made these little French Bulldogs in a distinct type, and American farmers were the first to demand the known as bat ears.

The French Bulldog is a breed mainly with blood and blood bull terrier. So it's no surprise that problems can arise when two dogs of this breed come together, especially when they are of the same sex. Owners who are considering adding a second dog to their household are usually cautioned and advised to choose dogs of the opposite sex. Castration can do muc
